

RAGHAV GARG

SOFTWARE DEVELOPER

ABOUT

I am adept at developing software solutions while evaluating security and feasibility. Committed to technological advancement and excellence in each task completed. Looking for a job which can offer me challenges.

WORK EXPERIENCE

SOFTWARE ENGINEER

SquareBoat Solutions | Jun 2017 - Present

- Worked on an in-house product Spectrum(<https://spectrumapp.io>), an AWS Services monitoring tool built over Cloudwatch to triggers several types of notification in real-time.
- Developed a web app for generating dynamic PDF based on different filters like centres, course, teachers and batch timings.

BACKEND DEVELOPER

WhiteSpace Studio | Jun 2016 - Dec 2016

- Contributed in Book24, a web app to manage every aspect of a branch of a company. Only functional in Sweden and USA.
- Implemented payments and subscription for add-on products of Book24 using Stripe.
- Implemented Search Feature using Elasticsearch and Logstash.
