ABOUT

I am adept at developing software solutions while evaluating security and feasibility. Committed to technological advancement and excellence in each task completed. Looking for a job which can offer me challenges.

WORK EXPERIENCE

SOFTWARE DEVELOPER
Box8 (Product Company) | May 2018 - Present

- Developed the location caching mechanism for catalog micro-service.
- Built notification micro-service with a ruby gem for easier client integration.
- Setup the deployment architecture for web with zero downtime.
- Developed a configurable monorepo for web to power multiple tenants.
- Migrated an AngularJS website to Angular8 with SSR while using HTML cached responses.
- Worked on the customer support software consisting of a dialogflow bot and fallback to human agents, with the multi-panel chat web application.

SOFTWARE DEVELOPER
SquareBoat Solutions (Service Company) | Jun 2017 - May 2018

- Migrated an AngularJS website to React + Redux with SSR for Juggernaut(https://juggernaut.in).
- Worked on an in-house product Spectrum(https://spectrumapp.io), an AWS Services monitoring tool built over Cloudwatch to trigger several types of notification in real-time.
- Developed a web app for Cedarwood(https://cedarwood.co.in) for showcasing their services and generating dynamic PDF schedules based on different filters like centers, courses, teachers and batch timings.

EDUCATION

BACHELOR OF TECHNOLOGY
Maharaja Agrasen Institute Of Technology | 2013 - 2017
GPA 70.6%
